| Vabysmo  | Quarterly          | WAC     | 18.00% |

### Performance Contract Opportunities

Eligible GPO members will have access to one of the two rebate opportunities listed above based on their historic baseline volume. Baseline volume is determined by purchases made from 4Q21-3Q22 and calculated as the sum of average quarterly units by product: Lucentis Units x 1, Vabysmo Units x 3, Eylea Units x 2, Beovu Units x3). Volume for both opportunities is calculated as the sum of quarterly units (Lucentis x 1, Vabysmo x 3)

Eligible GPO members will have access to the Genentech matrix opportunity for Lucentis. In order to achieve a rebate, an eligible member must hit both a volume requirement and market share requirement as listed below in which both are measured in mg's. For example: Customer A buys 205mg of Lucentis, 100mg of Susvimo & 250mg of Vabysmo (Volume=205mg and Market Share=36.94%) which equates to a 3.5% rebate based on where those requirements intersect. Market Basket includes Susvimo and Vabysmo
